ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

The piece of handsome bronze statuette awarded as the grand prize in the 15th Annual Baby Show, of Asbury Park, N. J., to the Hammond family of this place, is on exhibition in the show window of G. W. Weaver & Son.

The Civic Club Boxes.

Commenced. The Civic Club has placed receptacles on the streets to help in the enforcement of a State law which prohibits the throwing of paper, or any rubbish, on the highway. Nobody bothers about the enforcement of the law, and few know of its existence, but if it should be enforced for a week the fines would be enough to sprinkle the town for that time.

At present the receptacles are so abused that it is difficult for the Civic Club to keep them in good condition. They are stuffed with express wrappings, trimmings of wall paper and such things as should be disposed of in some other way, especially in the vicinity of the post office, R. R. stations, court house and other public places, where they are crowded to overflowing most of the time.

If those who wish to use them for private rubbish would see to having them emptied often there would be no objection, but the Town Council only provides to have the rubbish removed once a week.

A Convention Town.

James Foust, special agent of the State Dairy and Food Commission, who was here recently, was positive in the opinion that Gettysburg is of all places the ideal one for conventions and reunions of every kind.

He says there is no town of the size anywhere that can so comfortably accommodate so many people at one time in hotels and boarding houses. All should come here.

Right you are.

She was an adopted daughter of Mr. and Mrs. William Hafer of Abbottstown and was married 32 years ago to Dr. William Hollinger, son of David Hollinger, also of Abbottstown, who survives her with two sons, Dr. Guy Hollinger and Clair Hollinger, both of Abbottstown.

Tawney and wife, of this place, by three brothers and two sisters: J. A. Tawney, Wm. McG. Tawney and Mrs. S. A. GETTYSBURG A SCHOOL TOWN

NEARLY 1,000 SOULS ATTENDING SCHOOLS AND COLLEGE.

Crowded Schools in Town May Demand at Early Date a New Building.

A striking fact about this community is in the number of children attending the schools and educational institutions of the town. Gettysburg is a school town, though as a battle-field town other points are overshadowed. When the sum total is counted up the number of young people going to school in Gettysburg is found to be not far from the astonishing figure of 1,000.

The Freshman class in Gettysburg College, which opens tomorrow, will number between 70 and 80 students and the attendance in the four College classes is larger than ever before in the history of that institution. The total in the four classes will run from 225 to 250. Large classes are also expected in the Preparatory Department and the whole student body in the institution will not be few short of 300.

From 30 to 40 students will be in the Seminary and they will swell the student body to about 340.

St. Francis Xavier School will add about 100. The Public Schools adding to the number 546 children, with the private schools, the grand total will be but a few short of one thousand souls.

The enrollment of pupils in the public schools so far made is as follows:

| | |
|------------------|-----|
| 1st Primary | 66 |
| 2d Primary | 57 |
| 1st Secondary | 41 |
| 2d Secondary | 51 |
| 1st Intermediate | 60 |
| 2d Intermediate | 49 |
| C Grammar | 49 |
| B Grammar | 39 |
| A Grammar | 39 |
| High School | 78 |
| Colored School | 26 |
| Total | 546 |

These facts will bear a careful study. The best educators unqualifiedly say that schools should not have more than 50 scholars, and there are towns where the schools will not exceed 40 pupils. When that number is reached another school is created. In the above list will be found five schools with more than 50 scholars. The rooms in several instances are crowded. Space in both the High street building and Meade High School is in demand.

This condition can mean but one thing. If the schools continue to become more crowded each year a new building will be needed. The community might as well face the truth. It is a question of but a very short period of time, perhaps several years, before a new building will become a necessity. The building debt on Meade High School is nearly \$10,000, but the chances are that long before it has been paid Gettysburg will have to build a Grammar School Building. It is to be hoped that the necessity need not be faced until more of the debt is paid, so that it might be possible to build without increasing taxation.

The situation is needing careful consideration at the hands of the school directors. They should wisely face the situation, handle and prepare for the future. The hope was entertained by many citizens that the angle between York and Hanover streets would have been available for school purposes, but that is now out of the question. Any new building belongs to the eastern section, and available sites ought to be studied by the directors, and if the right site is presented it might be wise to get control of it by an option and hold until it was absolutely necessary to make use of it.

The Court House.

The improvements being made to the Court House suggest the publication of the following note from an old issue of the COMPILER:

In 1858, the Grand Jury having passed favorably upon the question of building a court house, the County Commissioners, Henry A. Picking, Josiah Benner and Jacob Raffenberger, advertised for proposals and John R. Turner, of Carlisle, being "the lowest and best bidder," received the contract, at \$14,775. For extras and alterations he received the further sum of \$1,200. It is probably the best public building in the state for the price, and occupies a lot and a half on the south-west corner of Baltimore and West Middle streets. S. D. Patton, Esq., of Philadelphia, was the architect. The lower rooms were occupied by the public officers on the 1st of August, 1859, but the court room, on the second floor, required several months longer for completion.

Tobacco in Adams County.

A very fine quality of tobacco has been grown in our county this season, near Hanover. Abraham Hostetter, of that place, had on the farm in Conowingo township, purchased from Joseph Keagy, six acres which he has stored on the premises in good order

and which is believed to be worth at least \$150 per acre.

The work on the crop covers about three months and the value of the yield far exceeds that of wheat. It is believed that the soil is not so much exhausted by tobacco as it is by corn. James L. Stahl, of Hamilton township, reports tobacco leaves growing in his field that measure 22 inches broad by 36 inches long.

R. C. Mackley, during this season, raised on the farm of John Keagy, Mountpleasant township, tobacco leaves measuring 17 inches broad and 33 inches long.

MURDER IN FULTON COUNTY.

Judge Swope Called There to Hear Motion for Bail.

The following is a McConnellsburg dispatch of the 8th to the Phila. Record:

"On the night of August 18 Miller Jones, proprietor of the Eagle Hotel, at Fort Littleton, Fulton county, it is alleged, shot John E. Husler through the head. Husler lingered, semi-conscious, until this evening, when he died.

"There were quite a number of guests at the hotel on the night in question, and after they had all retired Husler and his father entered the hotel, and, becoming somewhat intoxicated, insisted upon arousing some of the guests. To this Jones objected, and in his efforts to get the Huslers out of the hotel young Husler was shot. Jones was arrested for aggravated assault."

President Judge Swope was notified on Mon. that the prisoner is in jail in Fulton county on the charge of murder, and he is requested to come there to hear a motion for bail. He will therefore go to McConnellsburg tomorrow.

"Blue and Gray"

The Blue and the Gray, an organization composed of the Philadelphia Brigade Association and the Association of the Survivors of Pickett's Division, will meet in Gettysburg on the 15th inst.

The reunion will take place at the angle during the day, when the sword captured from General Armistead, now in the possession of the Philadelphia Association, will be returned to the survivors of Pickett's charge. The reunion camp will be held in the Court House, when addresses will be made by prominent men of the association. Dr. T. C. Billheimer will also be among the speakers. The choir of St. James Lutheran church will take part. The party will number about 250 and their headquarters will be the Eagle Hotel.

Sales of Real Estate.

George Meckley, executor of Wm. Meckley, sold at public sale the farm of 108 acres and 84 perches in Tyrone township, to Chas. H. Deatrick, at \$21.20 per acre, or total of \$2290.72. The New Chester property was bought by Nevil F. Shank for \$700.

The 74 acre farm of the late Mrs. Polly Harbold, near Hampton, was sold on Saturday by Auctioneer Crist to John Nickey, of Hampton, for the consideration of \$1800.

David Daugherty, of Highland township, has sold his house and lot of 22 acres, on the Fairfield road, near the Stone Church, to David J. Brown, of the same township, for \$2500.

Court Notes.

Order of sale of part of real estate of Hiram A. Starnes, deceased, in Cumberland county, Pa., awarded to D. A. Thomas, executor, and bond approved.

The Citizens' Trust Co. appointed guardian of Claude C. Ada L. Frances H. Irvin J. and Florence M. Clauser, minor children of Benjamin Clauser, late of Union township; also of Minnie M. Mary E. and Della R. Clauser.

Pure Milk.

On the trial of the case in Court recently against the officers of the Hanover Produce Co. for the adulteration of milk furnished the National Guard during Encampment Week very clear and scientific testimony was given by Prof. Henry Cochran of the chair of chemistry in the West Chester Normal School. He made the significant and positive statement on the witness stand that all that is necessary for the preservation of milk is cleanliness and ice.

TOWN COUNCIL MEETING

ENGINE HOUSE AND STREET SIGNS ORDERED PAINTED.

Highway Committee to Make Some of the Advertised Pavements—More Trouble of Some Kind.

President Gilbert presided at a full house of councilmen on Tuesday evening of last week, nine members including himself, Oyler, Culp, Wierman, Becker, Hammond, Beck, Wisotzky and Tawney. Minutes were read and approved.

Robert Caldwell asked for permanent relief from the trouble the water in gutter makes at his home which comes from three directions and several times a year he is washed out. A box across Steinwehr avenue was largely cause of trouble and if taken out and street fixed properly the trouble would end. The matter was placed in hands of Highway Committee with authority to fix.

Mrs. Blocher and J. A. Kepner, through counsel, requested that they be given sewer relief. That the sewer put down under the permit issued to them had cost nearly \$400 and nineteenth expended when council changed its plans. That these parties had absolutely no way to sewer except such way as to make trouble. That the combined taxes paid by the three residents was almost \$150 a year and they were entitled to consideration.

In conclusion a petition was presented setting out, "We, the undersigned citizens of Gettysburg, do hereby recommend the building of a public sewer to accommodate those citizens on Seminary Hill, who built an expensive sewer with the expectation of connecting same with the general sewer system, after a sewer permit had been granted by the borough authorities for this purpose. It is but right and just to extend the town sewer so that they may be accommodated as they understood they would be and for which purpose in good faith they spent their money. The health of the borough demands this sewer to be built." The petition was signed by 85 taxpayers of the town.

"Every councilman discussing it admitted that the parties should have sewer, but some other portions of the town wanted sewer or would want. A motion unanimously carried that the Sewer Committee prepare a plan of town of the uncompleted portions of sewer and ascertain the cost thereof at next meeting.

The Highway Committee reported an alley fixed and hitching posts on streets on which trolley runs taken down. Some wanted to know why they were not taken down all over town.

Bids advertised for were then opened.

For painting outside wood work of the engine house following bids were submitted:

J. F. Slonaker \$45 00
R. C. Paxton 45 00
J. A. Linn 47 50

On motion contract was awarded to lowest bidder, R. C. Paxton.

For painting street signs with aluminum paint, H. E. Minnigh bid 13 cents and W. D. Gilbert 25 cents and contract was awarded the lowest bidder.

For the old gas lamp posts, to close main, fill up holes and repair pavements, Oyler & Bro. offered to do work for the posts. President Gilbert said W. D. Gilbert would have a bid. A lot of talk followed. Oyler & Bro. bid was only bid in, it was known now what they wanted, and remarks along that line and as bid was not handed the committee advertising for same but to council it was finally held over.

Col. E. Spangler complained of Carlisle street for first square being blocked before arrival of every train, with hacks and trolley so that people can

not get to his warehouse—lost two loads of wheat recently. Policeman answered him that hackmen pay license and farmers tell him they are afraid to drive through, they might hit hacks and be sued for damages. It was the opinion of council that this condition should be broken up, that the square could be used for trolley cars and hacks until there was some sign of coming of trains. They thought the Burgess should compel the policemen to open and keep open the street.

A motion prevailed to allow the decorating committee for Firemen's Convention to place arches wherever they saw fit but not to obstruct the streets.

Two ordinances, one to open and extend Reynolds avenue 365 feet southward at width of 50 feet and to extend West street 537 feet westward to Reynolds street were ordered to be advertised for 30 days and then presented at a meeting fixed for October 9. The presentation of these ordinances called for a discussion. Councilman Beck contending it would be better to put an 18 inch sewer on West street and not open the new streets, but other councilmen seemed to think the way to get the water off of High street was to open the new street so the water would go to the run.

Then the pavement question came up. The Highway Committee reported one bid to make the advertised pavements, S. D. Reidinger & Son, at 12 cts. per yard, 27 1/2 cts. per hour and 15 cts. for labor and matter was left in hands of Highway Committee to go ahead and act. One councilman reported Frank Blocher as having said to him he would make pavement within two weeks if surveyor would give grade, and another that W. S. Duttera would make pavement when he was given grade. These were matters for Highway Committee. The council were of the opinion that the Highway Committee should wait no longer but select several pavements and make them and show that the town means business.

A number of other pavements were then discussed and it was agreed that notices should be sent to following citizens: W. T. Ziegler, Edgar Crouse, Murray Sheads and Dr. J. W. Tudor on Springs avenue, J. S. Dotterer, Baltimore street, L. M. Buehler repair in front of Gotwald store on York street, Reformed parsonage on Carlisle street, Presbyterian church repair gutter on Baltimore street, H. J. Brinkerhoff, Sr. and Jr., pavement on Baltimore street, also I. N. Lightner, the Griffith estate, repairs on High street, McPherson estate pavement on West Middle street, Max Davis Washington street, Harry Montfort, Mrs. Meals, Mrs. Montfort and Mrs. Thompson on York street.

Councilman Wisotzky asked members of council to have their pictures taken so that plates could be had for purpose of making a group picture in the proposed Souvenir Book for the Firemen's Convention. The councilmen seemed timid at first about preserving their likenesses, sort of shy and backward, but with a little coaxing they came to the scratch. There was some talk whether the town could not pay for these pictures at \$2 a face but others said that would make trouble. Finally they all promised.

REACH THE SPOT.

To cure an aching back. The pains of rheumatism, The tired-out feelings, You must reach the spot—get at the cause.

In most cases 'tis the kidneys. Doan's Kidney Pills are for the kidneys.

Charles Bierbach, stone contractor, living at 2625 Chestnut St., Erie, Pa., says: "For two years I had kidney trouble, and there was such a severe pain through my joints and limbs that I could not stoop or straighten up without great pain, had difficulty in getting about and was unable to rest at night, arising in the morning tired and worn out. The kidney secretions were irregular and deposited a heavy sediment. Doctors treated me for rheumatism, but failed to help me. I lost all confidence in medicine, but Doan's Kidney Pills relieved me so quickly and so thoroughly that I gladly made a statement to that effect for publication. This was in 1898, and during the six years which have elapsed I have never known Doan's Kidney Pills to fail."

A FREE TRIAL of this great kidney medicine which cured Mr. Bierbach will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

TIRED OF LIFE AWFUL SUFFERING

From Dreadful Pains From Wound on Foot—System All Run Down After Six Months' Agony—Not Able to Work—Completely Cured in Two Weeks

MIRACULOUS CURE BY CUTICURA REMEDIES

"Words cannot speak highly enough for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places, and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve, you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work."

"Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends who was a druggist, and the praise that I gave after the second application is beyond description; it seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness and who have seen it since the cure, can hardly believe their own eyes."

Robert Schoenhauer, Newburgh, N. Y. Sold throughout the world. Cuticura Soap, 25c. Ointment, 50c. Resolvent, 50c. (In form of Chocolate Coated Pills, 50c. per tin of 60, may be had of all druggists. Foster Drug & Chem. Corp., Sole Props., Boston, Mass. 427 Allied Bros., "The Great Skin Book.")

CLEAN UP THE STATE

Jeremiah Black's Ringing Address of Acceptance.

ISSUES MORAL, NOT POLITICAL

Lincoln Party-Democratic Nominee For Lieutenant Governor Arraigns Gang For Annuling the Constitution By Allowing Railroads to Control the Legislature.

Jeremiah S. Black, Fusion nominee for lieutenant governor, in accepting the nomination, declared himself entirely in accord with the program for cleaning up the state. He said:

My Chairman and Fellow Citizens: My nomination for the office of lieutenant governor was unsolicited—at no time and in no sense have I been a seeker for this or any public office. I have been always content to remain in private life, striking a blow for the general good on opportunity offered. I believe the fight as a man in the track.

I accept the nomination offered me by the Democratic party and the Lincoln party, and shall bear the burden and responsibilities of the candidacy only because no man who believes I do in the honest administration of the government, and in equal strict protection of the personal and property rights of all alike, can refuse to serve the cause in such place as may be allotted to him.

The governmental and political conditions in Pennsylvania have sunk to a level of baseness that no man can describe, without a blush of shame for the state of which he is a citizen.

For more than 40 years, the state of Pennsylvania and all its assets have been in the grasp of a political machine as corrupt as ever existed in the world. Disregard of the fundamental law and violation of the duties incumbent upon public officers have been so habitual as to become second nature with those reared in the school of politicians who have controlled Pennsylvania.

The machine parasites and lackeys have been educated in the belief that public office is but an opportunity for personal fortune. It has been the fashion for public officers, great or small, to go into business for themselves, using the power of their offices for their personal gain.

The misgovernment and corruption with which the state is cursed grows out of the habit, deep-rooted here, of public servants making a business of their duty.

For 40 years there has been no government in Pennsylvania by the people and for the people. The state has been misruled by the lawless company, in the name of the Republican party, for the advancement of the material interests of the greater corporations. These people and their puppets shoved into the official places, are not and never have been public servants. They are the servants of the corporations who pay them higher wages than the people can afford, and they have served their masters well.

In 1873, 33 years ago, the people gained some advantage as against the plunderers who had the state by the throat. In that year was adopted the new constitution. In the 17th article of that constitution is plainly and simply written the law declaring all railroads public highways; forbidding discrimination in charges for carrying passengers or freight; forbidding common carriers, directly or indirectly, to engage in mining or manufacturing articles for transportation over their (Continued on page 7.)

THE LIGHT OF OTHER DAYS.

Not very many years ago alcohol was used for lighting in combination with other fluids under the name of "Camphene," but it suffered banishment because it was too dangerous. Alcohol is generally harmful when taken in the form of medicine, especially to a delicate system. Dr. Pierce's tissue-building and function-strengthening plan of treatment is following after Nature's plan. He uses natural remedies, that is native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol and by skillful combination in the most exact proportions. The secret of the active ingredients of Dr. Pierce's Golden Medical Discovery, BLACK CHERRYBARK specially exerts its influence in cases of lung and bronchial troubles, and this "discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments. The names of the medicinal ingredients of this world-famous remedy are: Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot and Mandrake root.

"I have had such a wonderful experience with Dr. Pierce's Golden Medical Discovery that I do not hesitate to recommend it, believing it to be a wonderful medicine to build up the tissues of the system," writes Miss Jessie Brown, Secretary Emerson Literary Association, 436 Kerman Avenue, Appleton, Wis. "Worry and nervous troubles had completely run down my health and strength; I had no appetite, slept badly, and was in a state of nervous collapse. I took twelve bottles in all, and each week, knew that I was getting better and stronger, until finally I was as well and strong as I had ever been. I have the strongest faith and confidence in your medicine, and wish to thank you for my good health, which is a blessing to anyone."

For 21 one-cent stamps to cover cost of mailing, you can get a free copy of the "Common Sense Medical Adviser," paper-covered, or cloth-bound for 31 stamps. Address Dr. R. W. Pierce, Buffalo, N. Y. Dr. Pierce's Pleasant Pellets should be used with "Golden Medical Discovery" whenever a laxative is required.

FIFTY CENTS

In some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

BARN STRUCK BY LIGHTNING

East Berlin.—The big bank barn of John L. Bosserman in Reading township was struck by lightning on Monday morning and burned to the ground. No live stock burned, but all of this year's crops, hay and grain went up in flames. There was no one living on the farm but Mr. Bosserman happened to be there when the lightning struck the barn and he was able to get his live stock out.

Most of our farmers are done plowing and some are sowing wheat. E. L. S.

JOLO FIGHT IN PHILIPPINES

ADAMS COUNTY BOY WAS IN THE HOSPITAL CORPS.

Sends Paper Home Telling of the Wounded and Other Information of Country.

Henry Patterson of Mountjoy township has shown us a copy of the "Mindanao Herald," a weekly paper published in Zamboango, Philippine Islands. It is a small paper with 8 pages 8 by 10 inches, and proclaims that it is the "only newspaper published in the Moro Province."

The paper was sent to Mr. Patterson by his youngest son, George Patterson, who is a member of the Hospital Corps in the islands. He was in the Jolo expedition and was at the battle in which the expedition terminated last spring. He has sent many interesting pictures of the Philippines home, and including some pictures of the Jolo battle.

There are many things in the copy of the "Mindanao Herald" which can not help but interest every American, as over that foreign flag flies his flag. It prints the congratulations of President Roosevelt to the soldiers after the battle. Then follows a list of the killed and wounded. In the list it is mentioned that one was killed by bolo wound in abdomen and among the wounded are those with bolo wound in back, arm, jaw, face, ear, shoulder and head, the bolo being the name given by the Philippino to a knife or short sword. Two soldiers were wounded by sharpened bamboo, others with spear wound in shoulder, back and leg, and one was struck on head by large stone and quite a number had gunshot wounds.

This report shows that the fighting must have been fierce and in close quarters and illustrates the dangers besetting the American soldier in the Philippines. Editorially in speaking of the natives engaged in the battle the paper says, "The Jolo Moro is something unique in human species. In four fights on that island, some 2000 have been killed, all dying practically to a man. Surely such people can be made something of other than food for powder if properly handled."

Among the local news it is stated: The band stand is being fitted up with lights and when completed will make an excellent place for concerts. Program will probably be posted on the bulletin along the road for the benefit of visitors. With a good band, ideal evenings and appreciative audiences, the only want would be a string of benches along the road for those civilians and soldiers not blessed with a porch facing the parade grounds.

An article describes an exchange introduced by the Governor of place. Chinese traders had been gathering up goods of people under a system which kept the natives in debt to the traders, and by which they were robbed of a great part of valuable goods. The exchange paid money for goods and resold them. The exchange proved such a success that the natives have requested the establishment of exchanges at other points and the demand has far exceeded the supply of Philippine articles such as Moro boards, firewood, nipa, pearl shell, hemp, cattle, horses, fresh and dried fish, gatta percha, beeswax, tangel bark, and all forest products, cocoa, coffee, tobacco, ginger, corn and such manufactured goods as brass work, earthenware, boats, bedsteads, Moro cloth and wicker work.

The Catatubo Valley is described in an article as equal to the Valley of the Nile. Once each year most of the 150 miles of the valley is inundated, not by a flood, but by a gradual rise of the water of the Rio Grande, which deposits new earth more than sufficient to compensate for the loss due to any previous crop. Owing to this fact a crop of tobacco can be produced every year on the same ground, which is almost unknown in any other part of the world. What is true of tobacco is also true of sugar, two crops of rice can be harvested every year. But the future of Catatubo Valley is in rubber production.

Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

appear next week, a delightful sketch
entitled "An Italy's Golden Gate." Dr.

Leipzig, Germany and write that the
COMPILER which came to them at
intervals all summer during their
travels, was always welcome.

ORRTANNA ITEMS.

Orrtanna, Sept. 10.—John C. Pe-
ple set some steel traps to catch rats
at his out-kitchen, but the first catch
was a large copperhead snake measur-
ing 4 feet in length and as thick as his
arm. Two years ago he saw a large
copperhead enter the wall of the out-
kitchen and he thinks this is the same
one, having been recently caught in
two steel traps.

John Starnier will open a barrel fac-
tory in the large shop of S. Baumgard-
ner at this place in the near future.
Success to John.

Liver and Kidneys

It is highly important that these organs
should properly perform their functions.
When they don't, what lameness of the
side and back, what yellowness of the skin,
what constipation, bad taste in the mouth,
sick headache, pimples and blotches, and
loss of courage, tell the story.

proper performance of their functions, and

GERMAN GLEE CLUBS.

Early Days of the Saengerfests in This Country.

In the early days of saengerfests in
this country they were held annually.
The third saengerfest was held in New
York in 1852, and many Newark Ger-
mans attended. Below are given ex-
tracts from the Newark Daily Adver-
tiser, printed at the time:
June 10, 1852.—The German glee
clubs of New York will celebrate the
third annual festival in New York
this year on the 19th to 22d of June.
The New York Journal of Commerce
states that the glee clubs from abroad
will be received by the New York
clubs and honored with a torchlight
procession. The principal performance
will take place at the Academy of
Music, Fourteenth street, when the
choruses will be sung by over 1,200
male voices, accompanied by an or-
chestra of 100 pieces. On the 22d will
be held a picnic on the Bloomingdale
road, opposite Striker's bay.

June 22.—Third musical jubilee of
German singers, Saturday to Tuesday,
both to 22d. The execution of the
"Macke Flint" overture by 1,200 voices
was very uncommon and surprising by
the New York clubs and was received
with great applause. The Extrachts
of Newark sang "Walliseher Schif-
fergesang" in a distinguished manner.
But the most marked performance was
Martin Luther's "Ein feste Burg ist
Unser Gott," arranged by Finken. We
felt immediately what religious music
really is: how grand, solemn and sub-
lime such a hymn is when performed
by a large orchestra and hundreds of
voices. It was something to be re-
membered long. Kossuth was present
during an intermission and was cheer-
ed.—Newark News

THE SERPENT'S VENOM.

Mohammedan Legend of the Origin
of the Tobacco Plant.

The prophet was taking a stroll in
the country when he saw a serpent,
stiff with cold, lying on the ground.
He compassionately took it up and
warmed it in his bosom. When the
serpent had recovered it said:

"Divine prophet, listen. I am now
going to bite thee."
"Why, pray?" inquired Mohammed.
"Because thy race persecutes mine
and tries to stamp it out."
"But does not thy race, too, make
perpetual war against mine?" was the
prophet's rejoinder. "How canst thou,
besides, be so ungrateful and so soon
forget that I saved thy life?"
"There is no such thing as gratitude
upon this earth," replied the serpent,
"and if I were now to spare thee
either thou or another of thy race
would kill me. By Allah, I shall bite
thee."

"If thou hast sworn by Allah, I will
not cause thee to break thy vow," said
the prophet, holding his hand to the
serpent's mouth. The serpent bit him,
but he sucked the wound with his lips
and spat the venom on the ground.
And on that very spot there sprang
up a plant which combines within it
the venom of the serpent and the
compassion of the prophet. Men call
this plant by the name of tobacco.—

No Wool Over His Eyes.

Uncle Abe, a grizzled old negro, vis-
ited a zoological garden. He stood fas-
cinated before a cage containing a
chimpanzee and could not be induced
to move. After awhile the animal
came to the front of the cage and Un-
cle Abe spoke to him.
"Howdy?" he said. "Howdy?"
The chimpanzee not making any re-
sponse, Uncle Abe chuckled and
whistled at him knowingly.
"That's right; dat's de way ter do!'
Don't you nigger 'gin ter talk. Ef you
does white man put er hoe in yer han'

Stephen Girard, Hero.

A tablet "in commemoration of the
courage and humanity displayed by
Stephen Girard during the epidemic of
yellow fever in the year 1793" in
Girard college in Philadelphia discloses
a phase of character in the philan-
thropist not generally understood. Dur-
ing the fever epidemic he gave up his
business and his luxurious home and
assumed the superintendency of a yel-
low fever hospital. He took up the
work others recoiled from and did the
work because it was his duty.

On Himself.

They had quarreled again.
"Perhaps you are not aware," she
said, "that I had over a dozen propo-
sals of marriage before I accepted
yours."
He flushed.
"And perhaps, madam," he retorted
haughtily, "you are not aware that I
proposed to nearly twenty women be-
fore I became acquainted with your
self."

Temper.

If a man has a quarrelsome tem-
per, let him alone. The world will
soon find him employment. He will
soon meet with some one stronger than
himself who will repay him better than
you can. A man may fight duels all
his life if he is disposed to quarrel.—
Cecil.

Posted.

"Can you repeat the Declaration of
Independence?" she asked.
"I used to be able to," he replied,
"but about all I remember of it now
is, 'To be or not to be—that is the ques-
tion.'"—Judge.

THE CORN CROP.

Vinegar Branch and Stone Jug. Sept. 11.—The corn crop in this vicinity is generally good. Your correspondent remembers well when Straban and Tyrone townships were considered by many persons to contain the poorest land in the county, but now as the result of judicious farming and intelligent fertilization there can be seen in the above named townships corn fields that will compare with any in the county.

A Snail's Sense of Smell.
Professor E. Yung of Geneva discovered that the keen sense of smell attributed to the ordinary snail is distributed over the entire body not covered by the shell, the two pairs of tentacles, the lips and the edges of the feet being particularly sensitive. In the experiments made a brush dipped in various odorous substances in turn was brought near the different parts of the body, and responses were noted at distances of one twenty-fifth of an inch to several inches. Only in exceptional cases was odor perceived as much as fifteen or twenty inches away, showing that smell cannot guide these creatures to food far removed.

The Mulberry Tree.
Silk is the great industry of northern Italy, and the plains of the quadrilateral are dark with mulberry trees. The mulberry tree is the hardest worked piece of timber in the world. First its leaves are skinned off for the worms to feed on, then the little branches are clipped for the worms to nest in, then the large limbs are cropped for charcoal, and the trunk has not only to produce a new crop of leaves and limbs for next year, but must act as trellis for a grapevine.

His Bacille Business.
"That was a perfectly lovely gentleman I met last night," declared the pretty milliner. "He has a good, reliable business too."
"What is it?" asked her friend.
"Why, he sells farm implements," continued the pretty girl.
"What kind of farm implements?"
"Backs—nothing but buckets. He told me he kept a bucket shop."—Detroit Free Press.

STAR ROUTE RESTORED TO HAMPTON AFTER PROTEST

Traction Engine Breaks Down Bridge—Struck by Thief—Sweet Corn Pays Well

The people of Hampton were aroused a week or so ago over the order of the P. O. Department at Washington that the Star Route from York Springs to New Oxford should be discontinued and the rural free delivery would serve the people. The Star route has been in existence over fifty years. It has given Hampton most excellent service and the opinion has been freely expressed that if the Star route is ever taken from Hampton it will be such a blow to the business interests of the town as will take it years to recover from. The citizens of that town did not sit still when they learned of the proposed action of the P. O. Department. In short time a petition was signed by all the citizens and sent to Washington and help was asked from influential sources to prevent the wrong. The result was that Hampton was only two days without the Star Route. Orders were sent for its continuance.

THE BIG HANOVER FAIR.

Big Attractions and Good Racing Promised for This Fall's Exhibition

The agricultural fair to be held at Hanover this fall by the Hanover Agricultural Society will be the twenty-second on the society's beautiful grounds; and remarkable to state, that notwithstanding unfavorable weather on some occasions, not a single fair was a financial failure. This is owing to the high character of the exhibition and the enterprise of the managers in providing for good racing and the latest and best free attractions that can be secured.

The fair this fall, Sep. 11-14, promises to be a big one and to break the record for attendance and as an exhibition. The racing premiums have been increased to \$2700 and the track thoroughly reconstructed, ensuring a big field of fine horses. The attractions are of unusual merit, comprising the Sisters Macarte, just from London, the only ladies in the world performing simultaneously on a tiny thread of silver wire, a most novel, sensational and thrilling performance; the Demonea Trio showing the laughable adventures of demons in a big red hot cooking range; and for the children a noted animal show—Apdale's Bears, Monkeys and Dogs, with the only and eater on exhibition in the world. All these shows will be given free in front of the grand stand.

Given good weather, such a strong field of attractions will be sure to draw an immense throng and we are certain that all who attend the next Hanover Fair will be pleased and delighted.

JOSEPH E. BOWER of East Berlin has been paid the full amount of insurance on his barn, recently destroyed by lightning \$1400.

A bath cleanses the skin and rids the pores of refuse. A bath makes for better fellowship and citizenship. No only should the outside of the body be cleansed, but occasional use of a laxative or cathartic opens the bowels and clears the system of effete matter. Best for this are DeWitt's Little Early Risers. Pleasant little pills that do not gripe or sicken. Sold by L. M. Buehler.

PROF. G. ALLEN YOHE is building a new barn at his home in Hamilton township.

When two strong men come to blows, even if they are well matched, it is not a pleasing sight, but if the man who gets the worst of it will use DeWitt's Witch Hazel Salve, he will look better and feel better in short order. Be sure you get DeWitt's. Good for everything a salve is used for, including piles. Sold by L. M. Buehler.

A. J. NUSBAUM, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." The Peoples Drug Store.

COXSABLE Andrew Kefler was bitten in the thigh by a McSherrystown dog. The attack was without provocation and by a dog with a bad reputation.

THERE is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that it fails to cure. Send for circulars and testimonials. Address: F. J. The People's Drug Store Say They Have at Last Discovered a positive Cure for Indigestion

"For years," said a member of the above drug firm, "we have been waiting for some one to discover a remedy that really will cure dyspepsia."

"We recently learned that a new remedy, Pepsikola Tablets, had been placed on the market, and on investigation we found that at last there is a remedy that surely will cure. We laid in a big supply because we knew that as soon as the people began to know about this remarkable remedy, there would be a big demand for it, and it is selling beyond our expectations."

It is not often a druggist sells a new remedy on a positive guarantee, but unless cured of nervousness, dizzy spells, sour stomach, coated tongue, palpitation and other symptoms of dyspepsia, The People's Drug Store will hand back your money cheerfully and without argument.

No one should hesitate on trying a 25-cent box of Pepsikola Tablets, as they will not cost you a penny should they fail to relieve and cure the very worst case of indigestion and dyspepsia.

CLEAN UP THE STATE

(Continued from page 3.)

roads or in any other business than that of common carriers; forbidding officers or employees of railroad companies to be interested, directly or indirectly, in furnishing material or supplies to such companies; forbidding the issuing of free passes by railroad companies to any persons except employees of their company.

The embodiment of these principles into the fundamental law of the state was at the time considered a great victory for the people. But the provisions of the 17th article are not self-executing. Legislation was needed to enforce them, and therefore, it is provided by the 12th section of the 17th article that "the general assembly shall enforce, by appropriate legislation, the provisions of this article."

The constitution was adopted by popular vote, and the contest between the people on one side and the railroad and their allies on the other, went on. During the whole period from the adoption of the constitution to the present time, the people have suffered an unbroken series of disasters. In 33 years, there has not been a single piece of appropriate legislation enacted to enforce the provisions of the 17th article. For 33 years the railroads have controlled the legislature of the state, and, as a matter of course, have permitted no legislation that would check their plundering.

We have the humiliating memory of legislature after legislature riding to Harrisburg upon free passes given the members by the railroads, who, with the passes in their pockets, time after time, took the oath of office swearing obedience to the constitution—the constitution which they had already violated, and which they continued to violate to the end of their several terms.

We have the humiliating memory of judge after judge taking his seat upon the bench, and with a railroad pass in his pocket and his oath to obey the constitution upon his lips undertaking the decision of cases involving the interests of the corporation upon whose free ticket he travels the public highways without charge.

Every executive and judicial officer who has done these things should be impeached and removed from his office. But that remedy has been impossible, because an impeachment must be instituted in the House of Representatives and tried by the Senate, and these bodies have always been offending in the same manner. They could not be expected to punish other public officers for the offense that they themselves were committing.

We are having today the humiliating experience of hearing from the evidence introduced in proceedings carried on by the federal government the character and extent of the violations of the law indulged in by the railroads of the state—humiliating because it demonstrates that our own weakness against the thieves has been—because it demonstrates that for long years we have not exercised the right of self-government.

That conditions have become intolerable we affirm; and the candidates put forward by the same old machine this year admit the truth of the impeachment, but beg you to trust them once more, promising reformation. One of them in his published letter of acceptance announces that "The use of machine-like subversive which heretofore has been regarded as essential to political success has disappeared."

He says that certain Republicans do not comprehend "that the clouds which encircled the horizon have been dissolved by the sun of public wrath; that all future contests for public office, from the highest to the lowest, are free to all, subject only to the decision of the people; that the internal government of the party by the force of events has become and will remain free."

Here is the admission of the "machine-like subversive" character. Here is the admission that clouds encircled the horizon under machine rule; the admission that contests for public office have not been free, and the admission that the internal government of the Republican party has been in the hands of the enemies of the people—subservient to the gang of plunderers, and not free.

There can be no talk of reform at the hands of those who have made reform necessary—you may set a thief to catch a thief, but you will never place a thief in person or by his representative in position to steal again.

Since 1873, the fight for the people and their constitutional rights has been waged by the Democrats and in the name of the Democratic party.

At session after session of the legislature, the representatives of the Democratic party have proposed legislation for the enforcement of the constitution, for ballot reform, for the correction of corporate abuses; in every case they have gone down to defeat at the hands of the machine opposition.

posed to them. The force of crime and money wielded by the corruptionists has beaten down every attempt at betterment.

Now at last, proofs of the rascality of the plunderers who have ruled the state have accumulated heavily, and the truth has been brought home to every reader of the public press. Public opinion is aroused, and the annihilation of the gang is close at hand—when all parties are ready to join hands in the cause of freedom and independence.

In this crisis, the Democratic party with not less than 450,000 votes, clear of all party considerations, with an eye single to the sure redemption of the state. It has excluded from its platform all national issues and placed at the head of its ticket a broad-minded Republican, who from time to time before today, fought in the ranks of Democracy, against the oppressors of the people.

The issues of this campaign are moral rather than political. Rallyed around the fusion flag are men of all parties who wish to drive the perjurer the thief and the briber from the government of the state and from party council, whether the party be Democratic or Republican.

The Republicans who admire and believe in their president must feel ill at ease in association with the Pennsylvania gangsters, if their memories run back to the action of the gang legislature of 1905, rescinding, under gang orders, a resolution commending the course of the president in his efforts to secure legislation regulating the business of trunk lines—a resolution which the Democrat Creasy by chance put through.

The weakened gang now calls out the name of Roosevelt and protests that it and he stand for one and the same thing. It has shown its teeth but now, a few months after, begs the support of the friends of the man it struck in the back.

The old-fashioned Democrat, like myself, believes that the application of the principles of the Democratic party to the government of state or nation must bring the greatest good to the greatest number. He knows that the enforcement of the principles of the party in the government of this state would make impossible the rottenness now existing. He knows, as all men know, that the adoption of measures proposed by the Democrats at the various sessions of the legislature, would have made the constitution of 1873 effective, opening the doors of the penitentiaries to receive its violators. In that case we would not be facing the monstrous evils we are now called upon to eradicate.

As many sincere Republicans look upon Roosevelt as the reform leader of their party in national affairs, so do Pennsylvania Democrats regard Bryan as their great leader in the national arena in the fight for honest government, good law and the equal and sure enforcement of it.

In this year's campaign in Pennsylvania, the true friends of Bryan and of Roosevelt, the men who believe in honest government, have united for the single purpose of getting honest government for the state. When that is done and the dirt cleaned out, fusion will be no longer necessary.

Believing, as I do, and as I have expressed myself, I am proud to take my place in the fusion company, while my belief in the principles of Democracy grows stronger every day that it contemplates the failure of Republican rule.

The Size of Canada.

Canada is larger than the United States by a quarter of a million square miles. Canada contains one-third of the area of the British empire. Canada extends over 20 degrees of latitude—from Rome to north pole. Canada is as large as thirty United Kingdoms, eighteen Germany's, thirty-three Italy's. Canada is larger than Australasia and twice the size of British India. Canada has a boundary line of 3,000 miles between it and the United States. Canada's seacoast equals half the earth's circumference. Canada is 3,500 miles wide and 1,500 from north to south.

Impure Candy.

Beware of impure candy. Sugar in candy quickly ferments after eating, and if too much is eaten serious troubles often result. Pure candy dissolves quickly in water and leaves a clear liquid, affording an easy way of testing its purity. Drop a small piece of candy in a glass, and over it pour boiling water. Let it stand twenty-four hours. If there is any foreign substance in the candy a sediment will be found in the bottom of the glass.—New York Post.

After.

Mutual Discontent.

"Look here," complained the victim. "You said the house was only five minutes' walk from the station. To say the least, I'm disappointed in you." "No more than I'm disappointed in you," retorted the agent. "I thought you were a good fast walker."—Philadelphia Press.

AN EXPLANATION

(Original.)
A lady sat in a train on her way home after a summer outing. Her attire was half mourning and a bit of white ruffling in her bonnet marked her for a widow. A gentleman, sitting near her arose and, approaching her, raised his hat and said:
"Mrs. Sands."

"The lady looked up and met a kindly glance with one the reverse of kindness—it was icy cold.
"You have forgotten me?" said the man.

"Not at all. I have good reason to remember Ogden Rockwell."

The man stood, evidently undecided whether to return to his seat or remain and prolong the interview. The lady removed a bag from the vacant seat beside her, though she did not ask him to be seated. He sat on the arm instead.

"A great deal has passed since we last met," he said.
"I remember the circumstance very well. It was a week before my wedding. You took it upon yourself to give me advice."

"The scene is equally vivid to me. I remember some things I said to you, but if I advised you I have forgotten it."

"At that meeting, or rather parting, you told me that if I married Laurence Sands I would regret it. I did not believe that you would aid in any regret a wife might feel in her husband's weakness."

"Nor did I dream that fate would make it my duty to expose that weakness. As cashier I was responsible for any leak in the funds of the bank."
"You could have screened him for the sake of the woman you had professed to love."

"Hanford was suspected of having taken the money. Would you have had me sacrifice him?"

To this there was no reply.
"Granting," the man went on, "that there was no matter of duty or justice, would you expect me to shield a man who had taken away from me all that made the world attractive to me?"

"You struck through him the woman whom you say was all that might have made the world attractive to you."

There was a brief pause at the end of which the man said:
"I asked what you would have expected."

"I would only expect a man of wonderful nobility of soul to shield a rival."
"You would put it better if you said 'Only a cur would fail to shield a rival when the woman they both loved was to suffer.'"

She looked up at him inquiringly.
"My part in the exposure was what hurt me," he added. "That I could not help, though it wounded you."

"Why was the exposure necessary when there was a way out of the matter, as is evident from the fact that Laurence was not prosecuted?"

"It was known to the officers of the bank that a considerable sum of money had disappeared. As I have said, Hanford was suspected. The real culprit must at least be known."

The woman bent her head. The discussion of the matter was terribly painful, even though it had occurred five years before. She put her handkerchief to her eyes and wept. Then, drying her tears, she said:
"There is one and only one feature of the case on which I love to dwell. That is the noble act of Laurence's friend, Edward Horton, who paid the indebtedness and saved Laurence from prison."

The man dropped into the vacant seat. When he did so he was too absorbed in his thoughts to be conscious of the act. At the end of a brief silence he said:
"You were misinformed as to Horton's part in the matter. Horton was implicated in the embezzlement and threw the whole blame on your husband."

"Horton implicated? Horton threw the blame on Laurence?"

"Horton, not I, was responsible for the matter coming out."

"Why, then," she asked indignantly, "was I led to believe that Horton furnished the means to save Laurence? From the first I was deceived—deceived by everybody, by you, from whom I might have expected."

"You are Laurence's wife."

"Was this a reason why I should be deceived as to the person who befriended him?"

"Yes."

"Will you explain?"

"The person who furnished the means to make good the debt did so on the condition that some one should stand in his place to you as the donor. Horton, as Laurence's friend, made an excellent substitute and, being implicated, could be compelled to accept the part."

"Why did the donor desire to hide his noble act under the cloak of a thief and a traitor to his bosom friend?"

"Because he was a man and you were a married woman."

"Well?"

"He loved you."
She sat staring at him, her eyes seemingly growing larger and larger.
"You?"
"I."
Even the rattle of the train was not sufficient to hide the words both would have spoken. There were no words. He felt a hand on his and saw tears starting from the eyes of the woman who had so long supposed he had wronged her, while really he had saved her unutterable suffering.

Letter to W. H. Tipton Sr.

Gettysburg, Pa.

Dear Sir: We shall feel obliged if you write us how you came-out on your first few jobs Devoe as to gallons expected and used.

Take job A. You made your price, expecting to use 25 gallons Devoe, and used 15. Job B. You expected to use 15 and used 10. And tell us what paint you had used before. Of course, you judge Devoe by what you have used before.

Here's how a few came-out. M. A. Thomas, painter, Lynchburg, Va., writes: My first job with Devoe, I estimated 37 gallons; it took 25. Since then I have used nothing else.

C. B. Edwards, Raleigh, N. C., had used 30 gallons paste paint on his house, and bought 30 gallons Devoe; A. E. Glenn, his painter, said it wouldn't be enough. Had 16 gallons left.

Mayor W. W. Carroll, Monticello, Florida, writes: Painter estimated 35 gallons for my house; took 20 gallons Devoe.

Gilmore & Davis Co., contractors and painters, Tallahassee, Florida, say 2 gallons Devoe spreads as far as 3 of any other paint they know, and covers better.

S. A. Bullard, painter, Sanford Florida, estimated 50 gallons for Odd Fellows and Masonic Halls; they took 29 Devoe.

Jones & Rogers, Merkel, Texas, estimated 10 gallons Devoe for Mr. Pratt's house and bought 5 gallons for first coat, it painted two coats.

Erb-Springall Co., San Antonio Texas, painted two houses same size for D. J. Woodward, one lead-and-oil, the other Devoe. Devoe cost \$12 less for paint and labor.

Tom Masey's painter, Walnut Springs, Texas, estimated for his house 10 gallons Devoe; he had 4 left.

You see how it goes. Even the best painters can't guess little enough at first.

Yours truly

F. W. Devoe & Co.

A Guest.

The Renewal of a Strain.

Vacation is over. Again the school bell rings at morning and at noon, again with tens of thousands the hardest kind of work has begun, the renewal of which is a mental and physical strain to all except the most rugged. The little girl that a few days ago had roses in her cheeks, and the little boy whose lips were then so red you would have insisted that they had been "kissed by strawberries," have already lost something of the appearance of health. Now is the time when many children should be given a tonic, which may avert much serious trouble, and we know of no other so highly to be recommended as Hood's Sarsaparilla, which strengthens the nerves, perfects digestion and assimilation, and aids mental development by building up the whole system.

MAKE a note now to get Ely's Cream Balm if you are troubled with nasal catarrh, hay fever or cold in the head. It is purifying and soothing to the sensitive membranes that line the air-passages. It is made to cure the disease, not to fool the patient by a short, deceptive relief. There is no cocaine nor mercury in it. Do not be talked into taking a substitute for Ely's Cream Balm. All druggists sell it. Price 50c. Mailed by Ely Bros., 36 Warren Street, New York.

Olives

We have the choicest lot of Olives we ever had, and although Olives are advancing right along on account of scarcity of crops and increased demand, yet we are selling more than we ever did, which is due to the fact that we handle only the choicest grade, the Premier and Nabob brands. We have them from 15 cents to \$1.00 per bottle.

Imported Sardines

We have something new in Norwegian Sardines in oil—smoked—which impart a most delicious flavor to them, unknown in plain Sardines in oil. Try a box at 15 cents and you cannot fail to be pleased.

Royal Mint Sauce

35 cents per bottle. All that is necessary in the use of this Sauce is to pour a spoonful or two into a glass of crushed ice, fill the glass with water and sweeten to taste, and you have a most delightful and healthful summer beverage.

Teas

Some one asked at our counter one day for "Iced Tea." We did not have any "Iced Tea" but we did not turn the customer away empty-handed. We sold him a package of one of our choice grades of Tea which we handle in 1-4 lb. and 1-2 lb. packages, any one of which will make a most delicious "Iced Tea." We handle only Chase & Sanborn's Choice Teas in tin boxes, sealed, which insures the customer all the flavor contained in the original package. Our customers who have tried these Teas do not ask us for "Loose Tea" any more and would not take it if we were to offer it to them.
